This permit application or any permit issuing therefrom does not preclude the Applicant from meeting applicable State and Federal rules, statutes, and guidelines, which may differ from Local Ordinances. It is your responsibility to check.

Building Permits do not include plumbing, septic or electrical work, but plumbing (septic) permits are required before the issuance of pertinent building permits.

Permits expire if work is not started within six (6) months of the date of issue or if work is not completed within eighteen (18) months of the permit date. One twelve (12) month extension is available from the Permitting Authority if requested prior to the expiration date.

False information can invalidate a permit and stop all work on the project.

Any work performed under permission granted by this PERMIT must conform to all the provisions of all Ordinances in effect on the DATE OF THIS PERMIT, unless written permission for non-conformance has been granted by the Authority granting the Permit.

BY SIGNING THIS APPLICATION FOR A PERMIT I HEREBY GIVE EXPRESS CONSENT TO THE CODE ENFORCEMENT OFFICER TO PERFORM INSPECTIONS, DURING NORMAL WORKING HOURS, OF THE CONSTRUCTION AND FINAL COMPLETION OF THE PROJECT. Trespass - MRSA 17A sec. 402
